SUMMARY

Interdisciplinary Computer Science & Engineering graduate with strong expertise in software development, IoT, robotics, and AI-driven automation. Published conference and journal research in autonomous rescue systems and environmental photocatalysis. Experienced in IEEE leadership, community engagement, and cross-functional collaboration. Passionate about technology for social good, climate action, and intelligent systems.

EXPERIENCE

Web Developer (Contractual) Jan 2026 - Apr 2026

IBIZN

PHP, Laravel, Next.js

Data Analyst May 2026 - Present

Top Pay Service Ltd

Power-BI, Microsoft Office, Microsoft Excel, Zendesk

EDUCATION

B.Sc in Computer Science and Engineering 2022 - 2026

Independent University Bangladesh — CGPA: 3.4

Higher Secondary Certificate (HSC) 2018 - 2020

Chittagong Board

Secondary School Certificate (SSC) 2017 - 2018

Chittagong Board

RESEARCH AND PUBLICATIONS

Low-Cost AI-Driven Autonomous Rescue Bot for Water-Based Life-Saving Missions 2025

Presented on— 22nd Int'l Conf. on Electrical Engineering, Computing Science and Automatic Control (CCE)

Gomonika: A Privacy-Preserving Cultural-Linguistic Authentication Framework for Autonomous Delivery in Low-Resource Environments 2026

Presented — 2026 IEEE Int'l Conf. on Innovation, Ethics & Emerging Tech in Engineering and Computing Education (IE2C)

Ethno-Swarm: A Cognitive-Cyber-Physical System for Culturally Adaptive Waste Management in High-Density Urban Enclaves 2026

Presented on— 23rd Int'l Conf. on Electrical Engineering, Computing Science and Automatic Control (CCE)

Braille for All: A \$70 AI-Powered Braille Tutoring Robot That Erases the Literacy Gap with a Touch and a Voice 2026

Presented on— 23rd Int'l Conf. on Electrical Engineering, Computing Science and Automatic Control (CCE)

KrishiGhor: An AI-Powered Direct Trade Platform with Transparent Crop Pricing and Blockchain-Integrated Supply Chain for Smallholder Farmers 2026

Presented on— 23rd Int'l Conf. on Electrical Engineering, Computing Science and Automatic Control (CCE)

A Hybrid CNN-LSTM Framework for Bengali Handwriting Quality Assessment with Augmented Dataset

Presented on 2026 - 3rd International Conference on Advanced Computing Technologies (ICACT)

Multi-Resolution Feature Integration Framework with CNN for Bengali Handwriting Quality Assessment

Presented on 2026 IEEE International Conference on Optics, Machine Learning and Emerging Technology (OMLET)

E-commerce Products Resale Application 2024

- Designed and developed a robust MERN-stack marketplace facilitating the resale of products with distinct workflows for buyers, sellers, and administrators.
- Technologies: React.js, Node.js, MongoDB, Tailwind CSS, Firebase, Express.js, Stripe, JWT.
- Features: Role-based dashboards (Admin/Seller/User), secure payment integration via Stripe, and Firebase authentication.
- Repository: Mobile Garage

SKILLS

Programming Languages: Java, JavaScript, PHP

Frameworks & Libraries: Django, Laravel, Tailwind CSS

Databases & Tools: MySQL, PostgreSQL, VS Code, Git, GitHub, Figma, Canva, Netlify, Vercel

Hardware, IoT & Robotics: IoT device integration, Robotics & Mechatronics systems, Embedded systems (sensor integration), Autonomous systems design

AI & Image Processing: Computer Vision, Image Processing, Object & Human Detection (YOLO-based)

KEY ACHIEVEMENTS

- IEEE Computer Society – IUB Student Branch Chapter: Former Joint Secretary, Head of Logistics
- Bengal Legions: Former Crew Member
- Kashful Foundation: Associate

COURSES & CERTIFICATES

- Google Project Management Professional Certificate — In Progress
- CCNA: Introduction to Networks Certificate
- The Complete Web Development Course (Programming Hero) — Certified Black Belt

LANGUAGES

Bangla, English, Hindi
